evident

Professional License Verifications

With connections to **more than 6,500 authoritative sources through a single API,** Evident is the only solution that enables secure and comprehensive verifications without the risk and liability of holding personal information.

Evident's Identity Assurance Platform helps businesses verify a broad range of professional licenses, certifications, and designations in the U.S. and globally, including (but not limited to):

United States

- Attorney
- Electrician
- Physician
- Optometry
- Plumbing
- Veterinarian
- Therapist

- HVAC
- Nurse Practitioner
- General Contracting
- Security Guard
- First Aid & CPR Certification

International

- Aircraft License
- SCUBA Certification
- Watercraft License
- Paragliding
- Hang-gliding
- Weapons

Revolutionizing the way personal data is shared.

Simple
Start quickly, scale easily

Accurate
Data you can trust

Secure
No exposure to personal data

Compliant
Privacy by default

How it Works

1. Customize

Configure your company's policies, select which licenses you need to verify, and manage your verification requests all through a single API.

2. Request

With a simple document scan and minimal data entry, initiate your professional license verification request with less friction and frustration.

3. Verify

Automatically verify professional licenses and certifications with the most authoritative data pulled directly from more than 6,500 sources.

4. Review or Subscribe

Select a one-time verification, or a re-verification subscription, and receive updated professional license results to verify ongoing compliance with company policies.

TECHNOLOGY & SCALE

TECHNOLOGY

Evident leverages **artificial intelligence** and **facial recognition technologies** to streamline onboarding, minimize attrition, and facilitate comprehensive verifications and background checks with the highest degree of accuracy.

Evident's unique distributed data model, protected with end-to-end cryptography, gives companies the option to access a summarized or reduced version of the verified information they need, which virtually eliminates their risk of handling sensitive personal data.

SCALE

With a **growing library of more than 12,500 data attributes,** Evident can verify anything from government-issued IDs, criminal history, and insurance to professional licenses, education, and more. Evident has **four primary integration methods**, making it flexible, scalable, and capable of adapting to an organization's new business needs as they grow or pivot.

"Evident is doing a great job supporting my business. I'm very happy with the platform, but also with their customer service——they're responsive, solutions-oriented, and provide a quick turnaround."

- Hayley Johnson, Product Manager | **Porch**

evident

Enabling companies of all industries, sizes, and geographies to verify professional licenses quickly, securely, and confidently… that's the power of Evident.
