

Verify. Automate. Fix. Repeat.

Meet Evident, The Leading Insurance Verification Solution

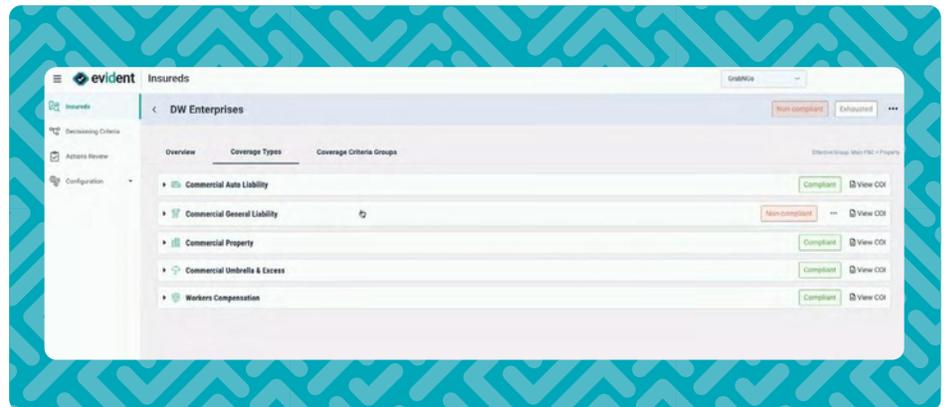

Evident is the compliance solution that enterprises trust. It helps quickly analyze Certificates of Insurance (COIs) and ensure your vendors (actually) meet your compliance standards in a matter of seconds.

Evident already has thousands of third-party vendors in your industry in our system. We know which ones are compliant and which are a risk (and suggest how to fix it).

With 100s of enterprises in our customer base, we are the trusted insurance solution to not only tell who is out of compliance but have it fixed fast so it never becomes your burden.

Find out why the world's largest companies trust Evident to verify over 820,000 policies a year

For today's top risk leaders, managing vendor risk could be a billion-dollar worry for your team. It only takes a second for an accident to happen. But who would be responsible for the claim if your vendor isn't properly covered? Short answer—*You*.

“Evident provides us with **better visibility** into the current state of our network while **improving our overall compliance**. Our ability to **automatically verify against multiple sets of requirements** has given us the flexibility to manage our network of haulers more efficiently while ensuring they meet the specific requirements of our customers.”

Risk is Everywhere, It's Our Job to Reduce It

Find Risk, Fix Risk

Over 75% of businesses today are not adequately protected because of sloppy insurance verification. Evident finds the compliance gaps before they become costly issues, immediately notifying you when one of your vendors doesn't meet your criteria.

Ditch Manual Work, Automate It

Find yourself sorting through countless certificates (COIs, ACORDs)? Then having to track all of that via spreadsheets so you can follow up when they don't send the certificates? With Evident, we automate the collection, verification, and follow-through. Freeing up time so you can focus on reducing risk, not sending another follow-up email or looking at a COI.

Stay Connected to Your Vendors and Help them Achieve Compliance

Evident's game-changing AI technology eliminates the friction involved in traditional risk management operations and compliance processes by connecting the entire ecosystem of enterprises, third parties, brokers, and carriers to close coverage gaps. Turning out verifications within 24 hours - making your life seamless, and getting those out of compliance, in compliance.
