

# Executive Summary

## Evident: Where Business Decisions Are Faster and More Accurate

Evident is your trusted partner in today's dynamic and evolving business environment. We unite legal, finance, and risk management teams, harnessing the power of AI and benchmark data to streamline your credentialing process, and more importantly, elevate your risk decision-making capabilities.

While we have a proven track record of reducing compliance admin by 85%, this is only one, small benefit of a business credentialing solution. The real value comes into play with our data-driven insights, that help you sidestep avoidable expenditures, guarantee comprehensive coverage, and maintain your competitive edge against your peers.

**Simple**  
Start quickly,  
scale easily

**Comprehensive**  
Verify multiple  
credentials

**Compliant**  
With regulatory and  
commercial standards

### Products and Services

- **The Evident Network:** Get access to millions of members and data-driven benchmarks to help show where your risk gaps are compared to your peers.
- **Insurance Verification:** An all-in-one COI tracking, collaboration, and automation platform that increases accountability and trust with your chosen partners.
- **Background Checks:** Simplify your onboarding and registration processes with Evident's robust criminal, commercial, and financial activity records to retrieve the most up-to-date background check results.
- **Identity Verification:** Get the highest level of identity verification assurance in seconds with our 3D Liveness Detection and never receive an "unknown" result again.
- **Business Verification:** By verifying business credentials, legal registrations, judgments, and other key data points, we help organizations know with confidence that they are dealing with a real business that's properly registered in their U.S. State(s) of operation.

**4 million+**  
members

# Be At The Forefront of Innovation and Trends

Evident is the partner of choice, with over 4 million verified members globally

We go beyond just verifying vendors; we work in a centralized hub of verified credentialing information that relays data-backed insights. Allowing you to stay ahead of the curve, avoid unnecessary costs, and ensure you're adequately covered.

Our clients have experienced:

## How Evident is Different:

- **Deep Visibility:** Evident doesn't just store your credentialing information, we can provide a complete analysis of your third-party exposure.
- **Automation:** Evident automates the entire process - collection, verification, analysis, decisioning, storage, and monitoring of all credentialing documents to ensure compliance with corporate standards.
- **Getting to "Yes":** Our workflows can handle the exceptions and even offer fulfillment to ensure that more of your third-party partners have active and up-to-date coverage, while greatly reducing your administrative effort.
- **Optimize Risk/Spend:** Get actionable benchmark reports and best-in-class recommendations for effective risk mitigation.

## Find Risk, Fix Risk Faster

By leveraging Evident's software, you can make real-time decisions to improve your risk. With the ability to pinpoint exactly where risk is present and report in real-time around compliance status, management can make actionable, informed decisions that keep the workplace safer - both physically and financially.

# The Evident Cleared Promise
